Invitation to a Product Demonstration and Training

Dear Mr. Palma Baptista,

I am writing to invite you to participate in a Product Demonstration and Training conducted by Trimble Inc. at our corporate office in Dayton, OH. This training will provide Rota Oeste with the required knowledge in Trimble's Heavy Civil Construction products and solutions.

Please plan to arrive in the United States on September 27<sup>th</sup> 2025 and to depart the United States on October 5<sup>th</sup> 2025.

In order for Trimble to remain in compliance with the U.S. immigration regulations, it is imperative that you enter the United States in the appropriate non-immigration status which would be either a B-1 visa obtained from the U.S Consulate prior to departure from your country, or a Visa Waiver for Business (VWB) obtained upon arrival in the U.S.

We look forward to your participation in this important training. If you have any questions about the process listed above, please contact Ricardo Garri +1(512) 970 8096, [ricardo\\_garri@trimble.com](mailto:ricardo_garri@trimble.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Ricardo Garri".

Ricardo Garri  
District Manager,  
Trimble Navigation Inc.,
